

**Winner of the [French Tech 120!](#)**

We are thrilled and honored to have been chosen for the 3<sup>rd</sup> year in a row to join the French Tech 120, a government-backed support program dedicated to the most successful and fast-growing start-ups of the French #tech ecosystem. French Tech 120 Program Class of 2023 is the Class with the highest selectivity since its creation.

This selection represents a fantastic recognition of Inotrem's highly innovative scientific approach and capacity to become a world-class technology leader. As a laureate, Inotrem will benefit from tailored strategic support throughout 2023 with dedicated French Tech Correspondents in more than 60 administrations and public services, integration into several economic diplomacy opportunities in France and internationally, and access to experience-sharing collective events.

The French Tech Next40/120 represents 26 unicorns, 11.3 billion in cumulative revenues in 2022 and 50,000 direct jobs in France and abroad.
